2. [REDACTED] stated he was assured by [REDACTED] in November that a contact would be made with them by this agency in connection with our personnel procurement needs, but [REDACTED] no contact has been made. I believe the reference to [REDACTED] was made by the Director in person.

3. [REDACTED] indicated his placement service is operated for the benefit of Naval officers, including reserve personnel, who are inactive and who are otherwise eligible for government as well as civilian positions. He also indicated that they often have available individuals who are particularly well qualified in scarce skills especially suited to an intelligence operation. The example he gave me of the background of one individual now available indicates that this service could be of great value to us.

4. I have informed [REDACTED] that an appropriate representative from CIA would contact him [REDACTED] in person sometime this week. Please take the necessary action to insure that the contact is actually made before Friday, and inform me when it has been made.
